Multiple Foundation Options

Our supplied buildings can be constructed on virtually any surface. With multiple foundation options available, our knowledgeable team can help you choose the best anchoring system tailored to your specific application.

Options Include:

- Concrete Lego Blocks
- Screw Piles & Earth Anchors
- Concrete Slab/Asphalt
- Concrete Piles
- Wooden Posts
- Sea-Can Containers

Building Profiles

We offer various types of buildings that can be made up to 250' wide and any length. Our team can walk you through the process of choosing the right structure to fit your particular aviation needs whether it be a permanent or temporary project. No matter what weather our harsh North American climate throws at them, our building solutions are always up for the task.

APPLICATIONS

- Portable Hangars
 - Storage Warehouses
 - Terminals
 - Ground Support Buildings
 - Cargo Facilities
 - Maintenance Facilities
 - Sunshades
 - Military Aircraft Storage
 - Baggage & Equipment Storage
- and more!*
